Dear Aunt Bert & Uncle Neal

Sept 27, 1947
England

Your letter finally caught up with me. I was glad to hear from you and to learn that you received my letter concerning the money. The reason we couldn't send all we want home is that we caught some Germans with their pants down and collected a big payroll of theirs. It was French money so we could spend it. Some fellows had thousands of dollars but it was no good except to spend in France. So I spent a few days with you. I hope he had a good time on his furl. Say Aunt Bert what she said of Mary giving up nursing. I thought she asked it. I wish she would go back to it. I don't like to see her at Campbell's. I'm going to see her and give her a piece of advice. I'm going to leave here this week so use the old address. It may go back it will be to Germany. Love
Frank
